Trust What Time Has Endorsed

There is not a medicine in use to day which possesses the confidence of the public to so great an extent as Johnson's Anodynic Laniment. For more it in eighty years it has stood upon its own intrinsic worth and merit, while contribution after generation have used it and transmitted the knowledge of its stillence to their children as a valuable inheritance. The best evidence of it extraordinary value is the fact that in the State where it originated it is till the leading family medicine. The sale there is steadily increasing.

This over saxty years since I first learned of the common this certifies that Dr. A. Johnson whose the britted medicane for the common this mane is signed to every genuine bottle of the common should be a signed to every genuine bottle of the common should be a signed to every genuine bottle of the common should be a signed to every genuine bottle of the common should be a signed to every genuine bottle of the common should be a signed to every genuine bottle of the same sax of the common should be a signed to every genuine bottle of the same sax of the common should be a signed to every genuine bottle of the same sax of the sax of the same sax of the s

It was invented by the late Dr. A. Johnson, of Bangor, Mc, an old fashioned, he hearted Family Physician. It is recommended by physicians every-lere. All who use it are amazed at its wonderful power and praise it ever after

THEATRE HORROR

Purposes of Robbery.

Coroner's Jury at Baltimore.

Woman Perished in Her Home House Requests Information on Matters Turkish People Deliberatory Kept in Igna- Witnesses Swore Positively that a Gang Intentionally Caused Stampede.

BAITIMORIS, Md, Dec. 28 Dr Alex Hill, coroner of the central police district, has summoned a jdry of inquest to meet tomorrow morning to investigate the cause of last night's theatre disaster Coroner Hill, after having viewed each body of the victims said "The appearance of the most of the bodies shows that death was due to suffice ion. The majority of the bodies I found had no bones broken, showing that they were simply packed so tightly logether in the struggle to get out that they were literally smothered to death. The lungs of more were congested and the hearts filled with blood. It was the most hor rible kind of death, yet the faces of the majority show no indicat one of suffering, proving that there is so thing in that theory."

Six victims of the FrontStreet Theatra

ing, proving that there is bothing in that theory?

Six victips of the l'ront Street Theatre horror were burned this afternoon Mosy Salbury, aged 11, and his 7 year old sister Kutle, were taken to the burnel place in the same hearse and were burned side by side, as were also Samuel Kramer, 13 years old and his sister, aged 11 da and Anna Navarlanski, leged 13 and same navas reconstitute. seven veers respectively, were the third puir of children followed to heir graves today by their sorrowing relatives

The number of fatalities is twenty

three
Of the ien patients at the city hospital four had recovered sufficiently to be removed and were sent to their homes this evening. Four of those remaining are in a critical condition (oroner Hill has summoned a large number of witnesses to appear at the inquest to morrow morning and a thorough investigation of the cau-es of the disaster will be made. All the hodies have been indentified and taken to their homes for burning.

All the bodies have been indentified and taken to their homes for burish.

Verdict of Coroner's Jury

BAITIMORF, Dec 29 The coroner's jury today returned this redict. 'With can attack bilane to no one except the audience liself, which hocame panio stricken and raised the cry of fire simply because some one ignited a loakage in a gas pipe, which leakage was trivial.'

Jacob Schneidergan's instimony created a constition. He swife that lifty prison—his own people—were responsible for the horror. It was their intention, he said, to cause a stampede for the purpose of robbing the excited people. He asserted that many of the gang came from other cities. The jury apparently didn't believe him. The fact was adduced that the owners it the death trap were indifferent to its defects and that gas had been escaping for days.

SUPPOSED SUICIDE
Of a New York Woman Saturday
Night.

New York, Der 20 The body of a
banosome, richly attired woman, which
was suber quently identified as being that
of Mrs. Jno. A. Runnetl, of No. 233
West Forty-ninth street, wife of Jno. A.
Runnett, a former treasurer of Niblo's
Garden, was found lying in the area way
of the residence of Albert. A. Nellis, No.
251 West Seventy-sixtli street, to-aligh!
A nlece of the dead woman stated that
recently her aunt bad been quite despondent over some real estate transactions and had threatened to take her life.
When the body was searched in the sta tions and had threatened to take her life When the body was searched in the sta-tion house a razzr was found in the woman's bosom and some suspicious looking powders in a small package were in her pocketbook.

CAUTION

हुकव्यक्तरकाव्यक्तरकाव्यक्तरकाव्यक्तरकाव्यक्तरकाव्यक्तरकाव्यक्तरकाव्यक्तरकाव्यक्त

THE greatly increased price of cream of tartar, the chief ingredient of a pure baking powder, has induced some manufacturers to substitute burnt alum (which costs but 3 cts. a pound), largely or wholly in lieu thereof, making a very low cost but a very unwholesome baking powder; and great efforts are made to foist these inferior powders upon consumers by the inducement of a lower price and by grossly false representations as to their ingredients and comparative value.

Alum baking powders have been declared by the most competent authorities injurious to health. Therefore every precaution must be taken to keep them out of the house. They masquerade under many names, and new brands are continually appearing.

It is safe to avoid all new brands. Baking powders that are sold either wholesale or retail at a lower price than Royal are almost invariably made from alum, and therefore not only inferior in quality, but positively dangerous to health

Consumers can be more certainly protected from alum baking powders, and make the wholesomeness of their food doubly sure, by rigidly refusing all sub stitutes for Royal Baking Powder. The Royal is cer tified by the Government and State chemists free from alum, absolutely pure, and superlative in leavening

It is unwise to take chances by the use of other brands

Bonds-Interesting Phases of Cipancial Situation.

I ONDON, Dec 28 Much interest is displayed in financial circles here regarding the proposed new American bond issue. Pending the official announcement, however, of the issue of the loar, the interest to be paid, and whether gold or coin bonds will be given to secure the loan, nothing definite can be predicted as to its influence on the European market. There is a difference or opinion here as to the reception the I oad man text would give even to new bonds bearing 4 per cent interest, but it is sign from that whereas a few days ago, all idea of taking part of the issue was scouted, such action is now discussed as a probability.

Surprisingly Rapid Reaction in the fature of American inances, especially as affecting interest that molecular prelations, has her bar prisingly rapid within the last few days berlin and Frankfort took the Load of London in speculative buying of American stocks and operators here have on the whole benefited by the selling which was done in London. At no time during the Wall street panic have the German boarses been so much influenced as was the English market.

Surprisingly Rapid Reaction

I'ho buying set in earlier here and even investors took a chance in securing stocks at low values. The bourse closed

rities The course of operations here gives evidence of the decreasing leftener of London on matters of fluence in which German financiers or investors are interested Fluence are no longer inclined to accept the tendencies of the london market as a good guide in important monetary enterprises at the present moment. te is not forgotten how Cermany ab sorbed the American loans at low values during the war of the American rebellion when the bonds were almost unsulable in London. So now when English floan cial houses seem to hesitate over the re-

ception of a new bond isau. the Washington government, it it is desirous of having foreign maikets take part in the lean, might find German ilrus prepared to negonate
The belief here in the permanence of
peace between the United States and
Great Britain is absolute and the general
conviction in the recovery of the heithy ondition of American finances

Silly Attempt at Deception the people — Volor the point a point as the clothing blankets and fannels of the people — Volor the people —

Call tin The people car no longer be deluded by such stuff as the above It served its purpose a dishonest one, when the people had no opportunity for comparison bus after hving for nearly thice years under Democratic rule they have had their eyes opened to the facthat Democracy is a delusion and : source. They were told that the effect of a duty on vool was to invite the use of shoddy and our D mouralic friends shed crocodile tears of sympathy over the poor man clothed in a shoddy cont, a altining mark for pueumonia During the last fiscal year under the Lepublica turiff law we imported only 173,774 pounds of shoddy rugs waste, etc., but in the fiscal year ending June 30 1895 and almost all of its in the ten months after the passage of the Democratic low we imported 117,2 (90 pounds, or an increase of over 1,000 per cont | The bogus tears have decreased in exact pro portion to the increase in the imports tions of bogus wool as a result of Demotritic legislation, as our Democratic friends are evidently of the opinion

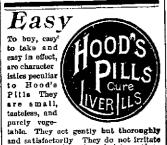

that the poor man is playing in great luck if he gets any kind of a coas The people were also told that with free wool they would be able to capture the murkets of the world In the first nine months of the new woolen schedule there was a decrease of about \$30 000 1 the exports of American woolen goods over 89,000,000 worth more of foreign woolen goods than in an entire twelve months of protection. Since the new woolen schedule went into operation we have imported in nine months, \$45,882,-305 of foreign goods, as compared with imports worth only \$12,950,970 during the corresponding months of 1894 1 his was no increase of 250 per cent During the full fiscal years of 1892 and 1893 ou imports of woolen goods averaged only 836,500,000 In other words we have not only falled to capture the markets of the world, but have been forced to murrender a very considerable portion of our own market to shouldy competition . When we come to add the loss to the American people by reason of the deathly blow administered to the wool industry and the loss in wages by reason of the stagnation in business for lowing close upon the heels of the Democratic victory, it can readily be seen

The Bangor Whig and Courier. We can conscientiously summend Tire on White And Counter, either THE DAILY or THE WPEELY, to the attention of our traders. The price of

dollars to six dollars per annum for 1896. take
Lord Salsbury, in appointing Sr
Augustus Hemming to the governorshuof British Guinan in succession to Sir
Charles Cumeron Lees had in view Sir
Augustus Service in delimiting British
and I rench territories in West Africa
The nomination of Sir Augustus was
due to Mr Chambertain secretary of
state for the colonies who plussianded
Lord Sulisbury to make an uaprecedented departure from official custom
m rusing Sir Augustus from a chief
cleriship in the colonial office to a
colonial governorship
Sir Augustus has studied the Vent
zuelan frontler question He conched
Mr Chamberlain on the subject and
probably supplied Lord Salisbury with
material information Now that the
question of the crisis has relaxed people
are wouldering what all the furpre was
about Papers like the speaker which
last week breathed a wasilike defance to
the United States, indulge this week in
queer self concratuations on the good
sense and good feeling showed by the
English under most unexpected and extraordinary provocation in "keeping their
emper and studiously refraining from
anything like retailation upon the Ameri
am jingoes"

The truth of the matter is that the

temper and studiously refraining from anything like retalization upon the American jingoes. The truth of the matter is that the jingo papers here, notably the Liberal Bonds would be Readily Taken in London.

London, Dec. 28—Inquiries made by the representative of the United Press, among prominent members of the stock exchange have elicited the confirmation of the statement of an amigent London financier that bonds of a new American loan would be readily taken here It is also learned that negotiations are now pending; with several London banking firms regarding their taking bonds of such a loan and the impression prevalls that these regotiations will be successful The bonds, however, must bear four present interest and he issued at partness, tried to fan the popular feeling into fiames. They failed chiefly because this interest and the insued at partness, tried to fan the popular feeling into fiames. They failed chiefly because that had been offered or was to be received from Washington. The talk on the part of some of the newspapers is not quito over. The agricultural papers discussed the probable effects of ward between the two countries.

quito over. The agricultural papers discoust the prohable effects of war between
the two countries.

The Mark Line holds that should a
war occur and, should it be a brief on,
the only effect on the grain trade would
is increased prices and shoriness of the
supelly. Russia and Ludia are now effective sources for the supply of any
home deficit ney.

DOESN'T DISTURB HIM.

Lord Salisbury Passes Week Gladslone's Remark on the Armenian Situa-

ply acknowledging the receipt of the pain phict Mr Gladstone disay we I any feeling of enquity towards the Luris and Mussulmans generally. He said I have felt it my duty to make it known that the Mohammedans including the Turks suffer from the bad government of the Sultan. I have heart by wished success to every effort made towards ending the great cvil. Still Turks and other Mohammedans are not so far as I know planticed repeat any derest starved and burned but thus is the treatment that the Sultan knowingh deals out to his American subjects duily. There are degrees in suffering degrees in baseness and villancy imong men unit both seemed to larve rached their chinax in the case of America.

Chartered Company to be Formed in British Gulana.

I ondon Dec. 28. The St James Gazette.

I ondon Dec 28 The St James Gazette which was the first newspaper to print the ultimatem of Great Britain to Ven ezurla on Ort 19th published today a statement that initial steps have been taken in Bertish Guiana to form a chir tred company whose operations shall lifetween the I sacquibo and the Schombur, line. The Gazette proceeds is say that the origin of this important political development is to be found in a displated which Mr. Chamberham colounal secretary wrote in September sketching the new policy of the imperial government, as regarded interior affairs and impuring it local capitalists were preparing to takefup and develop its momental and other ref.

The Cazette then gots on to print a report of a meeting held in British Guadin for the purpose of forming a chartered company to take up Mr. Chamberlands offer The puper which claims to know the policy of the colonial office, says it is certain that Great Britain will not consent to leave to arbitration the entire territory claimed by Venezucha. Hence if the bona fide financial guarantes of local applicants are satisfactory thre is no clason why Great Britain should stay her hand by not granting a charter despite the trason between England and the United States.

Rothschilds Will Advance Two Million Pounds / London Dic 28—The Chronicles Con stantinopic correspondent telegraphs that it is rumored that the Rothschilds have nareed to advance 2 000 000 pounds to the Turkish Government against a new tax Turkish Government against a new tax on petroleum Another rumor is to the effect that Russia will quarantee the Rotschilds receiving 1 000 000 pounds on account of the Turkish war indemnity. The correspondent does not vouch for the accuracy of the rumors but de lares that the suggested tax will be illegal unless the power give their assist to it.

FIRE COMING MAN Is a state of the fire of the state o

turning off of the gas was greater. In stead of allaving the exetement it anded rastly thereto.

The frantic Russan and Pelash lews attempt of a very nervous, exeteable remperament, redoubled their efforts to have the building. Under the influence of their fright, men and women scene of their fright, men and they fought each other like wild beasts in their misdirected of forts toward reaching the open air. The accipants of the galleries swarmed to the transways. Here it was that the most deadly efforts of the stampede manifested themselves. In a few minutes the hundreds who composed this part of the addience were jammed together like sardines in the lowermost starpast struggling to reach the street.

Mea, women and children went down in groups and were almost instantly crushed lifetess. Hach of the sturways has but one turn, that is a sharp angle hard these angles many persons went down to their death. Children were torn from inothers' arms and carried for a while on the top of the surging mob.

One women fought her way down the steps, carrying her child allowe her head a man behind granbled her by her expended arms and crowded her naide, pushing her behind him. The little one was torn from her grasp and fell. She made an effort to recover it but foiled and then turned with an awful-shriek to the man ahead of her and tought like if greats to reach him.

The child dropped in front of a women whose lumanity had not leen feight.

any of these It is the commonest trouble that human beings suffer from. It is so common that none tenths of all the sickness of the world is traceable to it. It is merely at the world is traceable to it. nie common thing—constitution no telling what it may lead to, but to lead to something bad. Its im-effects are unpleasant in the exit is sure to lead to something badd. It immediate effects are impleasant in the extreme. It makes people listless gives them headaches makes the digestion poor cause deziness loss of appetite, loss of sleep foul breath and distress after eating All thus merely because Nature has been moved upon and has been refused the intile help in farmished by Doctor Perces Pleasant Pelleta. One pill is a gentle laxative and two a mild eathartic. There are two remarkable things about the Pellets. One is that they never gripe, the other that they care permanently. There is no other medicine that does care commandity.

the other that they cure permanently the other that they cure permanently for can take any other permanently for can take any other medicine you like as long as you like and I you stop your trouble will come back which you do you stop your trouble will come back which you do you stop you trouble will come back with the you stop you take them until you get yourself into take them until you get yourself into perfect working order and then you stop. You do n thave to take any more "Pelleta" unless after a while you do something that de ranges your digestive system again. We do nt back you to take our unsupported word for it. Thousands of people have found hat they are true and have testified to them. Let the druggith who says that something cles to somebod, else. Don thet him trifle with your health for the sake of a title more profit to himself.

PERFECTLY APPALLING.

Details of the Atrocities in Asia Miner.

erport Saturday after a short visit with Only 150 Out of 2,000 Christian Houses Remain.

Boston, Dec 28.-The following letter has been received in Boston from Constantinople from an American resident in that city. The details of the atrocates in Asia Minor are perfectly appalling Some 2,000 were kalled and wounded in Arablar and most of the entire Christian puriter was burned.

Out of the 2,000 Christian' bouses only 150 remain, and into those are huddled several thousand survivors who are liv-ing on the refuse gram rescued from their burned houses. The scenes of the worst periods of Saracenic invusion enth century, were repeated over and over Thousands of Armenia Chinst ians have been forced to uccept Moham mem-dism at the point of the sword Christian women without number have been carried off to the hurems of Kourds and Tarks

id Turks The apathy of Europe and America, 40 attending the se slop of the Maine Pedagogical Society in Bangor.

OR SPIER X.

We turned into the first possion we came to—a poor, mean sort of an inn mid general shop, to be sure, but we were in no condition to cavil about tritoo happy to find a house of entertain ment still open So, after a dish of san sages, with very good wine, we to our heds and an end to the terment of fear I had endured from the moment I change

a meal of goats milk that meat and paid our reckoning, which amounted to a few rials and no more, Don Sanchez and I, taking what remained of Moll's two pieces, went forth into the town and there bought two plain suits of clothes for ourselves in the mode of the country, and, according to his desire, another of the same cut for Dawson, to-gether with a little jacket and skirt for Moli And these expenditures left us Moli And these expendences in the but just enough to buy a good gratur and a tambourine Indeed we should not have got them at all but that Don Sanchez higgled and bargained like any Jew, which he could do with a very good face now that he was dressed so neggarly Then back to our posada who the sight of him fuming in a short jacket would not please herself for all her seen we had got way through the town she dawdling behind to look first into this shop and then into that, gave us the ship, so that we were the best part of an or hunting the streets up and down in the atmost anxiety swearing with our exercise and trouble of she stens out of a shop as calm o you please in a skirt and jacket of her own fancy, and ten times more hand

her audacity too. But how not know made her wants known was a m and how she had obtained this gown and things for them, for these, in curious bundle, had her father been carrying up and down.
"If you han't stole 'em 'says Daw

son finding his tongue at lust, 'where did you find the money to pay for those

courtesy, "where you might have found yours had you not emptied it so readily for the robbers yesterday, and I fancy 's adds she shyly, 'I may still find some left to offer you a dinner at midday if you will accept it "
This hint disposed us to make light

of our grievance against her, and we went out to Ravellos very well subsfied to know that our next meal depended not solely upon chance, and this, togeth or with the bright sunlight and the weet myrgorating morning air, did be in keeping with the smiling gay sepect of the country about us

of wine if you are thirsty as we would give a mug of water, and the poorest It was strange to see how easily Moll fell into our happy go lucky humor, she who had been as stately as any Roman queen in her long gown being now, in her short colored skirt as frohesome and familiar as a country world at a fair, but indeed she was a born actress and could accommodate herself as well

m front of me I put it in tune and and tresihis bundle to his back that he may trey his haid at the tambourine. And so we much along singing and playing as if to a feast and stapping only to laugh prodigiously when one or other fell out of tone-the most mad, light hearte fools in the world—but I speak not of Don Sanchez, who, feel what he might, never relaxed his high bearing or unbent

one was free to enter, we making no charge, but taking only what they would One thing I remember of him on this journey Having gone about five rolles, we sat us down on a bridge to rest awhile, and there the don left us to go ing of kindness on both sides (very dif ferent from our sentiment at home who we players as often as not dreaf the audi ence as a kind of enemy, ready to tear us to pieces if we fail to please), and to a little way up the course of the stream that flowed beneath, and he came back us to passes if we fail to please), and we is twas as great a pleasure to amuse as theirs to be amused. I can recall to mind nothing of any moment occurring on his journey, save that we spent some time every day in perfecting our Span ish dances, I getting to play the tunes correctly, which at first I made sad broncher of and Dawson in learning with a pesy of sweet jonquils set off with a delicate kind of fern very pretty, and this he presents to Moll with a gra nous little speech, which act, it seeme to me, was to let her know that he respected her still as a young gentlewom an in spite of her short shirt, and Moll correctly, which at first I made and bangling of, and Dawson in learning his steps. Also he and Moll acquired the use of a kind of clappers called castanets, which they play with their hands in these fandangoes and boleros, with a very pleasing effect.

At Valencia we staid a week and three does however the week and three does however the week and was not dull to the compliment either, for, after the first cry of delight in seeing these natural, dainty flowers, she loving such things beyond all else in the world, she bothought her else in the world, she bothought her to make him a courtesy and reply to his speech with another as good and well turned, as she set them in her waist scarf. Also I remember on this road we saw oranges and lemons grow ing for the first time, but full a mile after Moll had first caught their won-At Valencia we stant at week and three days, lungering more than was necessary in order to see a bull fight. And this pasture they do not as we with dogs, but with men, and the bull quite free, and, save for the needless killing of horses, I think bins a very whole groups here a fair trail of ad drous perfume in the air. And there brees, which are about the size of a drab tree, grew in close groves on either side of the read, with no manner of fence to of the road, with no manner to runes to protect them, so that any one is lust to pluck what he may without let, so plen-tiful are they, and ctutious to see how frait and blossoms grow togother on the same bush, the lemons, as I knew, giv-

killing of horses, I think this a very noble exercise, being a fair trial of ad dress aguinst bying force. And 'tis not nearly so brutal as seeing a prize fought by men, and' not, more cruel, I take it, than the shooting of birds and hares for sport, seeing that the agony of death is no, greater for a stardy bull than for a timid coney, and high think of a draiting of that, the bull, when exhausted, is the natched quickly, whereas the bird or patched quickly, whereas the bird or hare may just escape capture, to die a mistrable long doath with a shattered mb. From Yalencia we traveled flye weeks,

Arocatock

Surveyors have been engaged for days surveying a branch line of the C P R R from Aroc-took Janation to Limestone, and fuesday foreabon had completed their work within one mile of Limestone village. Present appearances would indicate that Limestone, one of the righest and finest farming towns in Arocatock, will, in the near future, hear the whistle of a railroad locomotive within its borders. Aroostook

New Swedon's missing man, John Anderson, who was supposed by many to have perished in the woods, is safe and sound

and sound

A patriotic young lady of North Perham, a papil of Miss Spratt, who is reaching school at the Stone school house, proposed to Miss Spratt that they seek to raise funds to purchase a flag for the school house. Miss Spratt who, it seems, is acquainted with ex-Governor Perham, wrote to him about the matter, and the result was, that Mr Perham made a present of a beautiful silk flag, 6x10. Samuel Austin procured a apruce tree from his woods, and with the ald of Henry Spears, a handsome pole 52 feet in length was prepared, and on the 6th a gordly party went to the school house and the staff was placed in position, and at length century to see that are specified to see that the coaxing and wheelding on her part she at length persuaded Don Sanchez to show her a fandango, for surely nothing a got city party went to the sensoi nouse and the staff was placed in position, and the beautiful flag went shwly to its lofty perch amidst tremer dout cheering from the assembled party Mr Austin, at his own expense furnished the rope and blocks

One of the best lectures of the winter in this city will be the illustrated lecture this evening is the Central Club course stablinople." The interest of the schject, the fascination of the speaker and the beauty of the illustrations ensure closed the flood gates and in a short time that result. It will be illustrated by D. F. Hamlin is u son of Rev. Cyrus Hamlin, D. D., formerly of this city, and s a member of the faculty of Columbia College, New York.

The funeral services of the late Mr. Daniel M. Howard were held Sunday at 2 P. M. from St. John's Episcopal hurch and there was a large attendance of friends of the deceased. The floral offerings were very beautiful and numerous. Revi Mr. Bartlett officiated and the singing was by the church choir. Goneral Charles W. Roberts had the funeral in charge. The bearers were Hon. C. B. Hazeltine, of Belfust; Mr. Philo A. Strickland, Mr. Isaac H. Merrill, Mr. Edward F. Dillingham, Mr. Linwood C. Tyler, Mr. George W. Spratt, Mr. George W. Merrill, Mr. Lasse R. Clark, Mr Adelbent II. Chick had charge of the funeral arrangements. The interment

HIGH SCHOOL ATHLETES To Compete in the Games of the New England Inter-Scholastic Athletic Association. The Bangor High School Athletic As-

sociation are making preparations to send a team to Boston in April to compete at the games of the New England inter-scholastic athletic association, to be held in Mechanic's Hall. The choses athetles will begin regular training in a few days and will keep it up through the winter until the time of the contest. It is probable that Jordan will be the Bangor representative in the high jumps; Farubam in the walk; Coppers in the

shot put; Morrison in the long runs; Snow in the long cashes; McCann in the short dashes and Lyon in the broad

John Gilman, '96, will be manager of The High School boys in this ambitious move do not anticipate that they are going to sweep all before them, for their competitors come from all the principal echools and nendemies in Massaulingatts and other States and some of the records which they have made in past years compure favorably with the college records.

The experience will, however, be valuable for them in the Maine inter-scholastic sect in June and if they make any kind of a showing they will be satisfied. In two events at least, the high jump and the half mile walk, the Bangor boye have records which put them on a par with the Mussachusetts athletes and in some of the others there are good pros rects shoud, providing faithful training s indulged in, so that as far as record adjente there is a show of doing some hing. The meet is to be held the middle of April and as there are three and a helf

conths in which to train the member of the team may improve considerably is their work in that time. When Secretary Beals, of the Boston Amateur Athletic Association, was in Bangor isst June at the Maine Interscholastic meet, he expressed to the Banger boys the hope that they would send up a team to Boston to compete in the April games, as it would make it more interesting to have the contest more of an inter-State affile, so that they

have about concluded to try what they can do for the first time outside of the State at the coming games. AMUSEMENTS.

Mr. H. M. Pallen will give a New Your's dancing matines at Society Hall Makes Another Jam Penobscot River.

Dynamite Being Employed on Sunday

Blow It Up. Gaused of from Six to Eight

The difficulty with and danger from nobor ice in the river thus far this winter are well known to the public as the unusual condition has existed for several weeks lately and has occasioned such a rise in the water as to block the wheels at the Veszie station of the Public Works Company and to make an overflow on the banks of the Penobscot such as has rarely been seen before. The conditions have been just exactly

right this winter for the formation of that somewhat mysterious freeze up called anchor ice and it has got in its indeed as to not only make trouble for plants which used water power but also to cause alarm that much damage might be done mills, bridges and buildings on the river banks. Saturday it looked as though much in-

jury would be done, as there was an onslaught of anchor ice from up river and that evening and yesterday all sorts of rumors were floating about regarding the downward rush of Ice and the damage that had been done by it and the flood which followed. Late Saturday afternoon the ice in the

river at Costigan took a start down river, there being a channel for a long distance down, and as the natural ice and anchor ce were about ten feet thick in muny places, it naturally created a decided lise n the river water which immediately flowed ever the banks. As the ice wen downward the water rose correspondingly all along the river.
At Oldtown, Great Works, Orono

Barin Mills and Venzie there was a risof from 6 to 8 feet of water, which flowed over upon adjacent land, but fortunately did comparatively little damage. Below Basin Mills some families were driven from their homes by the water, but as it soon subsided they were enabled to return in safety. At Veszle the flush boards, which do

not form a part of the dam proper, were torn off and taken down the river with the huge blocks of ice and the flood of It was rumored that 70 feet of the dam had been carried away but the report was incorrect, the facts being as viven above.

The lee went down over the water works dam soon after 3 o'clock with rush and it is said to have been an awe inspiring sight to witness the great blocks ten feet thick pause on theedge of the dam and then tumble over with elephuntine grace into the swift water below. As the flood gates at the water works were open the rise of water which followed the ice came right into the works covering the floor with a foot or more of water.

Engineer Solton and his men quickly

closed the flood gates and in a short time many fine stereopticon views and a very having done damage of any account nteresting and instructive evening's en- From the water works the jam proceeded tertainment is to be expected. Prof. A. down river and gathering some logs on D. F. Hamiin is a son of Rev. Cyrus the way hurled itself against the abutments of the railroad bridge, making loud poise as the ice and logs struck the granite. No damage was done, however.
After going below the toll bridge there was nothing for the ice to back up nguinat as the main river is free. There were several jams on the way but they did no harm.

The water works was the mecca yes terday of a large number of people, who had heard of the occurrence, hundreds going there to view the scene while some vent forther up.

channel up the river from the water vorks, but yesterday the ice was packed n solid with the exception of a channe 600 feet in length from the water works dam and back from the dam about 100 feet where there was clear water. On the Brewer side a few ice cakes were piled up against the dam. Below the dam it was all open water except near the banks.

The Public Works Company and the mill owners had men at work yesterday blowing up with dynamite the ice at the upper end of the 600 feet channel, so that as much as possible of the lammed mehor ice would dont off down river Some of the formations of the billed up ice and that upon the edge of the

channels were peculiar. The Banger street cars were not run at all yesterday as there was not power enough but the Oldtown cars were run undi late in the ofternoon as often as

possible from this city to the water works and return and they were filled every trip. The Public Works Company furnished no incandescent lights last nleht. President Laughton said yesterday that all they now have to furnish power is a 115 horse power engine but in

week a 450 horse power engine would be in operation and in another week a sec ond engine of the same power would be ready for work. One of the most experienced men in the service of the Corliss Company is in the city repairing these engines and putting them in condition for use as soon as possible. The dumper in the immediate future

sepends upon the weather. If a warm rain should get in then there would be nch danger from ice and water, but if the weather comes off cold and stays so there will probably be tittle further trouble from that source

DEATH OF G. W. DILLINGHAM. Prominent New York Publisher and Former Resident of Bangor Passes

Away: A telegram received in this city Saturday marning by Mr. E. F. Dillingham conveyed the sad intelligence of the death of Mr. George W. Dillingham, the well known New York publisher, which coursed Friday pight at his reside comic, N. J. No particulars of the cause of his death, were given but it is thought to have been from the results of his horse falling upon him, after a stumble which brought him to the ground.
The accident happened three weeks

ago and was not regard d as at all aerious, Mr. Dillingham not being confined to the house by it. | Recently, however, ie had romplained of mot feeling

Mr. Dillingham was the son of Mr. N. H. Dillingham, of this city, and was be lyears of age. He left Bangor (about 35-years ago and was for some time employed in Boston.
From there he went to New York, and came a very successful publisher. He had a handiome realdques at Samoni, N. J. Mr. Dillingham was a business man

at, Dilligham was a business may of much ability and he had a large circle of friends who will indure his loss. He was in Bangor obly a few wocks ago and visited his father. He leaves a wife, who is a daughter of N. C. Alyri, Esq., of this city; a square, Rr. F. A. Dillingham, and two daughters. Hisses Lucy and Helen Dillingham, They will have the sympathy of a bost of friends in their Hop. C. B. Museltine, of Belfast, is in

A FIRE BUG

During the past two months there have een six mysterious fires in this city which have either started upon the stair ises of business blocks or in closet used for waste storage just off from the staircases and the exact causes have

There has been a suspicion all along that the fires were set and the last one which occurred Saturday evening, seems undoubtedly to have been of incendiar origin. A few minutes before 9 o'clock Mr. Haynes, the photographer, who has a studio in the third story of the block on Main street over the store of E. J. Davis & Co., and who was at work, with another man, in his rooms, smelled emoke. Going out of his studio he investigated and upon reaching an unoccupied room

in the rear of the block found the floor all ablaze. He and his companion hast ned to his rooms, procured some water in pails, dached it upon the fire and soon work with telling effect. So much so extingushed it. Capt. Nickerson, of the night police force, was then summone and he looked the place over but found no clue. Chief Engineer Mason and Fire Com missioner J. F. Woodman were also sent

for and they did what they could to discover the cause of the fire. The circum stances all pointed to the work of an in cendlary as there was nothing clse which could have possibly started a fire there Prepared material must have been placed in front of the door and then touched off by a match. Fortunately the damage was very slight.'
It looks very much as though some

oody in the city has a mania for setting fires and is gotting in his work at regular intervals. If he is ever caught, and every effort should be made to discover the villain, it will go hard with him. INTERSCHOLASTIC ATHLETICS

National Association Organized in New York Saturday. A movement started in Maine had its

ulmination Saturday in New York where the National Interscholastic Athetic Association was organized at a neeting of delegates from sections school associations, held at the De Lasalic lustitute in that city. The association elected these officers: President, H. L. Prati, Long Island I. S. A. A.; secre tary, H. Nelson Dunbar, New England I. S. A. A.; treasurer, Otho E. Michaells, Maine f. S. A. A. The executive committee consists of the four above-named officers and J. D. Tilford, of the New York J. S. A. A. The constitution gives the object of

be association as the fostering and pronotion of physical exercise in the public rivate and preparatory schools of the United States. The ouestion naturally omes up as to whether the association should take charge of the interscholastic athletics of the United States and regu late, sanction and govern such athletics.

It was decided that this would be teo great a step to take at first, and so the delegates decided to content themselves with giving a set of games in June : this first annual field meeting will be held in New York after the schools have closed All members of the association will be entitled to enter the winners and second nen in their separate league games upor he payment of annual dues of \$25.

it was voted that an age limit of 2] years be made. The bylaws were drawn up after the plan of the intercollegiate roles, the only changes of importance being in the list of events, where the 12pound shot and hammer are to be substituted for the 16-pound hammer and shot, and the mile for the two-mile bicycle race. Five leagues, representing at least 150

schools, have announced their intention of joining, while the prospect is very bright for at least five more coming in which will make the influence of the association felt from the Atlantic to

FOREIGN NEWS.

Body of Nihilist Cremated. Body of Nihilist Cremated.

LONDON, Dec. 28. The body of Sergius Stephisk, the Russian nihilist and refugee, who was killed by a train at Chiswick on Lee. 23, was cremated at Woking today, in the presence of a concourse of nihilist and socialist refugees. Many women carrying wreaths were in the correge which merched to the crematory. Speeches were made by John Burne, the English inbor leader, and others.

Big Time in Havana.

Havana, Dec. 28. A grand public demonstation took place in Havana this afternoon and evening in honor of Gen. Martinez Campos. The procession was very imposing and was headed by representatives of the various political parties who marched together in a most fraternal manner. The civil corporations and municipal departments, the clubs, the university, the economical society, and in fact every organization was represented and the enthusiasm manifested was unboutded. Big Time in Havana.

sented and the enthusiasm manifested was unboudded.

Important Moeting in Havana.
Havana. Dec. 28. An important meeting was beld here to day in support of Spanish rule in Cuba. S, eaches were made by a number of prominent conservatives, automolets and reformies, all of whom declared that Cuba's destiny could only be achieved under the flag of Spain. Captain-General Campos silso addressed the meeting. He said the circumstances of the present revolt were more showy than tearible. The manimity of sentiment displayed by those present would induce foreign countries to open their syes to the true feeling of the island.

He declared that he did not intend to resign or abandon Cuba while suyone was in arms rgrinst the government. The fact that those so widely separated in their political faiths could hold a meeting where the only sentiment voiced was loyalty to Spain, must make a deep propression on the robets and he expressed the hope that such a manifestation of devotion to the crown would prove to the insurgents the fatility of their hope to cause a general Cuban rising, leading them to return to their homes, when they would again be greeted as brothers.

Sensation in Berlin.

Beneation in Berlin.

Berlin, Dec. 28. The sensation of the week has been the abscending of the great Berlin lawer, Fritz Friedmann, for whom a warrant was issued for bribing a police officer to allow a lady client rham the officer was to prison to escape. Friedmann has the reputation of being the ablest lawyer in Germany. It is suid that his income averaged 500,000 marks a year, and was hist seen white attending a Masonic dinner with his wife.

In some way he got, wind, of the fact that a warrant was issued for his arrest and vanished after realizing all the cash be could. He took with him beadige all his available money, the documents in the case of Leberccht Von Kota, formerly court chamberlain, and other secret papers which had been entrused to his care, by high personages. Friedmann leit a wife, and five children in poverty, his creditors baving selzed all of his effects immédiately aften his disappearance? isce.
It is now learned that he led a double

It is now learned that he led, a double life for innay years. While winning a high public and aoctal character he militalized a mistress who was the daughter of a professional burglar he had several times defended in the Berlin courts. The girl, who was only 17 years, old, after conserting with Friedmann, hecame as figure in this ballet in minor theatres' ander the stages name of Kellie Von Wildenfels, and

NEW FIELDS OF COLD Appalachian Range Said to be Full

L. I. expect to accirome remarkable deof the South," remarked Robert E. Preston, Director of the Mint, while discuss ing the subject of the gold production of the United States. Since the opening of the Atlanta Exposition the most enthusiastic reports have been received at the department from various sources, relating to the magnificent exhibits of mineral products from the States of North and ionth Caroline, Georgia, Alabama and South Chroning, Georgia, Madama and Telencestee. Mr. Preston says he pro-poles to make a thorough investigation of the territory known as the South Ap-palacting range during the country year, for he is convinced that there is enough gold to be found there to warrant a more generated working of those mines. It will be discouraging to the advocates of free silver in the South to know that ac-

free silver in the South to know that according to official figures the precious metal mines in the Southern States produced last year gold to the amount of \$285,117.84, and but \$6,700 82 in silver. North Carolina produced 2,330,001 ounces of gold, valued at \$48,165, South Karolina, 4,758,435 ounces; value, \$98,506; Georgia, 4,772,272 ounces; value, \$98,615. South Carolina and Georgia mines could have been made to yield more bountfully had sufficient capital bein complexed.

duced last year gold to the amount of \$238,117.84, and but \$6,700.82 in silver. North Carolina produced 2,330.010 outces of gold, valued at \$48,166; South Carolina, 4,758,461 ounces; value, \$98,661. South Carolina and Georgia mines could have been made to yield more bountfully had sufficient capital been employed.

Mr. Preston says he believes there is a great future for those two States in the production of gold if the necessary apital can be procured. At present only the most crude mining implements are used there, and the miners luck the improved facilities for getting out the ores in more profitable quantities. It some of the mines the miners easily because discouraged because the yield was not as abundant as they expected. In other instances the mines filled with water, and the appliances used for pumpleg found to be so valuable in the great drawbacks to the working of these mines, says Mr. Preston, is the back of capital, and the predominance of sulptur in the ores taken out. There is a process which can be employed to relieve that difficulty to a considerable extent. That is one of the sulptest to be considered during the coming year.

In South Carolina the gold mines are located in Caestrified. Lancaster, Spartagurg, Union and York Counties. The reports show that during the hast year the Blackaburg Caloric Reduction Company was an extended to repeat and the preservation company was an order of the sulptest to be considered the Blackaburg Caloric Reduction Company was an order of the sulptest control of the sulptest of the propagation of the supplication of the sulptest control of the sulptest of the sulptest of the sulptest of the control of the sulptest of the

reports show that during the last year the Blacksburg Calorie Reduction Com-pany accomplished some work, and the Brewer mine in Chesterfield County was Brewer mine in Chesterfield County was idle nearly ten months. It is helieved that internal disagreements in the company were the cause of the suspension, for there has been no question raised as to the resources of the property. The suspension of that mine fully accounts for the diminished yield of the Sate, and its resumption will restore South Carolina to be forced. Carolina to its former leading position among the gold-producing States of the

aniong the gold-producing States of the South.

The Haile mine, in Lancaster County, still maintains its energetic and productive work, and each year witnesses some marked improvement in the method-, which incress not only to its own actvantage, but to the profit of the whole section, and has an important bearing on the solution of the problem of the gold industries. On the whole the ulning operations of South Carolina are in a more satisfactory condition than mast of its neighbors, and are likely to be extended in a conservative manner. WASHINGTON NEWS.

Washington, Dec. 28. The House passed today the Senate bill authorizing

WASHINGTON, Dec. 28. The House paised today the Senate bill authorizing and directing the secretary of the mayy to occept the ram Kana fin as recommended by Secretary Herbert, and the bill now goes to the President who will sign it, so the Katahdin will soon be a part of the new ravy.

There was no real objection to the bill in either house, although an explanation was required from the mee who managed it in both houses. Almos Cammings and Mr. Bontelle carried it through the House The former stated that it was the best and fastost ram ever built, and that it could destroy any battleship in the world, while Mr. Bontelle brought out the fact that the Bath iron works had spent \$44,000 over and above contract requirements in the attempt to accomplish the impossible, that that after they had provided more power than their contract medicale for the may department cordially commended their efforts, and, as the Secretary wrote in his letter to Senator Hale, which was read in the House and Senate, the contractor did the best possible, and no amount of power could have produced the required speed in a vessel of that character.

Pacific Railroad Bonds.

Acting Secretary Weeke, of the Trens-

vessel of that character.

Pacific Ballroad Bonds.

Acting Secretary Wycke, of the Transury, gave notice to-day that the United States 6 per cent. bonds of the face value of \$4.320,000, Issued under the sets of July 1, 1802, and July 2, 1804, to the Union Pacific Railroad Company, and commonly known as "currency sixes," became the natural became the set of the me due and will be paid in Washing ton, Feb. 1, 1896, and that interest of The interest due Jun 1 will be paid at the same time as the principal and further accrued interest Feb. 1.

So far of these bonds there have been paid: Feb. 1, 1895, \$2,322,000; Nov. 1, 1893, \$640,000.

1803, 940,000.

Nobice has already been given that Jani I, 1809, 34,980,000 of these bonds will be paid, making in all, with the February buyment, nearly \$11,000,000 of Pacific railroad bonds paid for by the government.

Bifore July 1, 1896, another batch of these bonds will muture, and unless Congress provides for their extension, the treasury will have to redeem them. In intelest a one, since these Pacific railroad bonds were guaranteed by the government, in 1865, the treasury has paid out \$105,000,000.

National University.

out \$105,000,000.

National University.

Another bill to establish a national university at Washington has been introduced in both the Senate and the House. It provides for a university of the highest type and vests the government of the university in a board of 16 regents, with the President of the United States at its the President of the Figures, with the President of the United States at its head, and a university council, embracing said board and 12 eminent educators representing as many lustitutions of high rank and belonging to as many States, the regents to have charge of sill business affairs, the council of all else. It flarther authorizes the university to establish co-operative relations with other institutions of the country, prohibits partiss and sectarian professees in uty form, makes admission depend on chapter-ucy only and so guards the degrees to be granted as to protect the interests of all collegists institutions entitled to recognition.

In consideration of the fluorist condition of the country it appropriates for the facil years of 1807 and 1898, barely enough to enable the board of regents to argables and do vach preliminary work

orgalize and do such preliminary work is should no longer be delayed, at the same time opening the door to all such as may delaye and inditation of George Washington contribute in any way to the great enterprise originated by him. MARINE JOURNAL.
